

## GARDENING

Spring has sprung and summer is near. It's the time of year that we all get excited about gardening. The following are allowable and non-allowable costs for FNP for gardening programs.

### **ALLOWABLE:**

Only educational supplies (ex. supplies for printing handouts, MyPyramid posters), curricula and staff salaries to teach gardening concepts, that reinforce the **Basic NUTRITION** of gardening to have more fruits and vegetables, are allowable costs.

### **NOT ALLOWABLE:**

Purchase or rental of equipment, land for garden plots, seeds, plants and other gardening supplies are not allowable FSNE (FNP) costs.

I encourage you to work with local agencies or your county offices to pay for the gardening supplies while your focus will be to teach basic nutrition as it applies to gardening.

Keep up the great work.
